Professional Summary

Lead Frontend Engineer with 12+ years designing and shipping high-performance, enterprise-scale web platforms in **React**, **Next.js**, **TypeScript**, and **Node.js**. I own frontend architecture end-to-end — from design to production — for network-automation, media-streaming, and cloud products, and lead and mentor engineering squads. Founder of *Save Time - Focus & Block Distractions*, a Chrome extension with 300+ installed users.

Employment History

Senior Software Engineer 4(TL) , Juniper Networks, Bengaluru

AUG 2021 — PRESENT

Lead frontend for **Juniper Paragon Automation**, a cloud-native suite automating complex network operations.

- Directed a squad of engineers, set UI architecture standards, mentored peers, and enforced high-quality code through reviews.
- Designed a managed/unmanaged device model with selective "Manage" control, protecting plan integrity and streamlining operator workflows.
- Delivered mission-critical modules — Blackhole Detection, Traffic Engineering, and Network Planning — used by **5+ operators**.
- Built an in-browser SSH console and audit-logging system, strengthening operability and compliance traceability.
- Built an internal **OVA Build Manager** automating VMM provisioning from OVA images across QPods — real-time WebSocket logs, live SSH sessions, capacity checks, and version tracking — cutting environment setup from 20 mins to 3 minutes.
- Cut initial bundle size by 35% and improved page load by 1.5s via lazy loading, code splitting, and tree-shaking.
- Implemented advanced topology editing (node/link operations), **reducing manual network-modeling time by ~25%**.

Tech: React, Redux, TypeScript, Node.js, HTML, CSS, JavaScript, Jest, React Testing Library

Senior Front End Engineer , Ericsson, Santa Clara, Bengaluru

MAR 2018 — AUG 2021

Contributed to **MediaKind (Ericsson)**, a multi-tenant OTT/IPTV video-delivery platform used by **10+ tier-1 telecom operators** to stream live TV and VOD to **millions of subscribers**.

- Owned user-facing features — Download-to-Go, Parental Controls, Settings — with a focus on reliability and UX.
- Built VOD and Live TV modules enabling rent, play, record, and favorites, surfacing upcoming events.
- Designed a unified, cached data layer that reduced network chatter and 21% redundant calls.
- Supported on-call rotations and drove design reviews and bug-bashes, improving release quality.
- Removed performance bottlenecks, improving responsiveness and load times by ~33%.

Tech: React, Redux, TypeScript, Node.js, HTML, CSS, JavaScript, Jest/RT

Senior Web Developer, Aricent, Bengaluru

JUL 2017 — FEB 2018

Built web applications for **IKEA Cloud at Home** and **Microsoft Xbox**, integrating global store data and custom work-item logic.

- Developed a location-aware chatbot that delivered localized answers and improved engagement by 24%.
- Applied cross-browser / cross-platform practices to expand compatibility and stability.
- Built responsive UIs and integrated REST APIs in close collaboration with backend teams.

Tech: Angular, JavaScript, HTML, CSS

Web Developer, TCS, Bengaluru

JAN 2013 – JUL 2017

- Contributed to the Online Integrated Project Resource Application, dynamically calculating estimates from bill rates using JavaScript and JSON.
- Refactored client-side validation, reducing dependencies and improving application stability.
- Ran user testing and implemented feedback, improving user experience

Technologies Used: JavaScript, HTML, CSS,

Education

B-Tech(CSE), Asansol Engineering college

AUG 2008 – JUL 2012

Accomplishments

4× "Star of the Month" across Juniper, Ericsson & TCS, **Ericsson ACE Award – Employee of the Quarter** – recognized for delivery, quality, and technical leadership.

Additional Information

- **Founder – Save Time: Focus & Block Distractions** (Chrome extension, 303+ users): [Chrome Web Store](#)
- Technical blog on JavaScript, React, and Data Structures: abhijitpatra.wordpress.com
- **Portfolio:** <https://abhijitpatra.vercel.app/>
- **PDF Forge** : Privacy-first PDF editor running 100% in-browser – add text, remove pages/images(ongoing) - <https://abhijitpatrapdf.vercel.app/>
- Burger ordering demo: burger-78b6a.web.app

Community Service & Hobbies

- **Founder, "IMpossible"** – provides food, books, and essentials to children and people experiencing homelessness.
- Content creation: blogging, reading, and producing YouTube tutorials.
